

REMARKS**Overview**

Applicants have reviewed and considered the Final Office Action dated April 12, 2005 and the references cited therewith. Claims 1-11 have been cancelled, new claims 12-18 are presented. The claims should place the case in condition for allowance. Applicant respectfully requests reconsideration of the above-identified application in view of the amendments above and the remarks that follow.

Examiner's Recommendations To Allow Claims

As stated at page 6 of the Office Action, claims drawn to methods of controlling moss by applying the composition of claim 1, would be allowable.

Pursuant to this comment and a telephone discussion with the Examiner, Applicant hereby submits these method claims for consideration.

Applicant would like to note that none of the art references of Pace, Young, or Moore teach or suggest methods for killing moss, as the claims now recite.

The Examiner is thanked for his comments and if the above claim changes do not result in allowance of the case, he is invited to contact the undersigned at the number listed below.

Conclusion

No fees or extensions of time are believed to be due in connection with this amendment; however, consider this a request for any extension inadvertently omitted, and charge any additional fees to Deposit Account No. 26-0084.

Reconsideration and allowance is respectfully requested.

Respectfully submitted,
